Never Too Late to Start!

When we think of roller skating we think of something only kids would do. Depending on your age you might remember roller skating as something you did every Friday night... or maybe on a Saturday afternoon with your friends. Whatever the memory, it's never too late to make new ones!

Roller skating is for everyone! Parents bring the kids and then realize that they, too, want to try! And what better way to share a family day than to laugh and exercise together. It's a win-win situation for all. And what fun to hear your child laugh .. and talk! And get healthy!

**Do one thing
every day
that scares
you.**
